

COMMERCIAL

AC/DC Power Supplies, AC & DC Source Battery Chargers, DC/DC Converters & DC/AC Inverters

- What are the Input and Output Voltages?
- Is Output Power Required ? Please provide in amps
- Is Battery Charging Required?
- Are there any Environmental Protectants Required?
Ie. Heat, Cold, Dust, Moisture, Vibration, etc.
- What is the Application that the Product will be used in?
- What is the Quantity Required?

MILITARY

AC/DC Power Supplies, AC & DC Source Battery Chargers, DC/DC Converters & DC/AC Inverters

- What are the Input and Output Voltages?
- Is Output Power Required ? Please provide in amps
- Is Battery Charging Required?
- Are Military Connectors needed? If so what make, model and pinout are required?
- A brief description of the application to determine environmental protection requirements,
Ie. Heat, Cold, Dust, Moisture, Vibration, etc.
- What is the Quantity Required?

FREQUENCY CONVERTERS

- What are the Input and Output Voltages?
- What is the Input and Output Frequencies?
- What is the Output Power Required? (Amps)
- Are there any Environmental Protectants Required?
Ie. Heat, Cold, Dust, Moisture, Vibration, etc.
- What is the Quantity Required?
